

Clean up and strengthen your school's domain health with a **Google for Education Domain Audit** by our strategic partner **RGT Consultants**.

When you purchase this service through Promuevo, your educational organization will receive a comprehensive audit across five key areas to ensure your domain follows best practices in terms of structure, security, and performance.

## Google for Education Domain Audit

RGT Consultants' Google for Education Domain Audit services cover five key areas of domain health:

### Technical Architecture Design

- Domain architecture
- Organizational unit (OU) structure

### Security & Compliance Review

- Security settings
- Admin access
- Domain policies
- User security

### ChromeOS Console Settings Review

- User and device settings

### Third-Party & Mobile Apps Services Review

- Marketplace apps
- Mobile and SAML enabled apps

### Google Services Review

- Google Workspace core services
- Add-on services such as Google Classroom
- Non-core services such as YouTube, Blogger, and Google AI Studio

Once the domain audit is complete, you'll have a **90-minute meeting** with one of RGT Consultants' **certified Google Workspace admins** to review your **comprehensive audit report** documenting your current settings and recommendations for optimizations.
