

## Many companies today deal with...

- **License Waste:** Maintaining licenses for inactive or offboarded employees.
- **Admin Time Drain:** Manual onboarding, offboarding, and compliance tasks.
- **Data Risks:** Limited visibility into compliance, data retention, and recovery.

Even the best-in-class collaboration tools can leave gaps that drain resources — impacting both productivity and bottom line.

By combining **CloudM's Backup & Archive with Promevo's gPanel**, you gain the tools to eliminate these inefficiencies and optimize your environment while saving significant time and money.

### CloudM Archive

- Free up licenses by archiving former employees' accounts.
- Long-term data retention with searchable, compliant archives.
- Automated offboarding workflows ensure consistent compliance.

### CloudM Backup

- Unlimited, long-term data protection beyond Google's 25-day limit.
- Granular restoration of files, emails, or accounts.
- Safeguards against accidental deletion, malicious activity, and sync errors.

### gPanel By Promevo

- Manage users, groups, and devices from a single dashboard.
- Streamline onboarding and offboarding in minutes.
- Apply updates and security policies across thousands of users.
- Detailed audit logs and permission controls.

# gPanel + CloudM Backup & Archive

## Benefits of This Bundle

### Risk Mitigation

CloudM Backup secures long-term data recovery, and gPanel enforces policies with detailed audit logs — keeping you compliant and protected.

### Cost Reduction

Use CloudM Archive to store former employees' data in low-cost storage and free up Workspace licenses, while gPanel ensures active licenses are optimized.

### Time Savings

Automate onboarding, offboarding, and bulk updates with gPanel, reclaiming hundreds of admin hours every year.

### Scalability

Designed for enterprises managing thousands of employees, CloudM and gPanel scale easily as your organization grows.

## What Clients Are Saying

"It felt like we grew to 700 employees overnight. gPanel made managing our rapidly expanding IT infrastructure significantly easier."

**Dom Dizon, IT Manager of PayJoy**

"We have saved millions of dollars by using CloudM to move archive users to a secure storage archive."

**Paul Young, Head of Collaboration & Communications Digital Solutions, Holcim**
